- 1875—The first steel rail was rolled at Scranton, Pa.
- 1876—Eighty lives lost in railroad wreck at Ashtabula, O.
- 1909—French Chamber of Deputies passed a high protective tariff bill.

## NEWSPAPER BEST MEDIUM.

Advertising mediums was the chief topic for discussion at the regular meeting of the Binghamton (N. Y.) Merchants and Advertisers' Association held in that city a few days ago. Concerning the value of the newspaper, William McMahon, a well known advertising manager, said in part:

"In my estimation the handbill and the rest of its kind bear much the same relation to the recognized best means of publicity as the old-fashioned muzzle-loading blunderbuss of the past does to the rapid-fire magazine guns of the present day. If you were going out gunning today you wouldn't select a blunderbuss. Then why, in hunting up new business, do you use those same methods?"

"You probably want to know by this time what I consider the best means of publicity. To my mind, there's no doubt about it—newspaper advertising."

"It's the most profitable advertising—therefore, the best. There is no limit to its business-bringing powers, provided it is backed up with the right merchandise at the right price."

## THE NEW LYRIC THEATRE

ON MAIN STREET.

Prices 5 and 10 Cents.

## Chief Justice White Was an Officer In Confederate Army

Photo by American Press Association.

The new head of the United States supreme court probably is the only man ever placed in that exalted position who is an accomplished pianist. Chief Justice White's main diversion is the piano. It is a source of self entertainment, through which he gets relief from the cares of ponderous judicial thought and research. But he rarely plays for the entertainment of friends. Persons on his visiting list frequently have entered his residence and surreptitiously listened to his manipulation of the keys with rapt enjoyment. When discovered he has shown embarrassment, sometimes annoyance. On one occasion while strolling with his chum, Associate Justice Holmes, Justice White entered a music store and seated himself at a piano. Running his fingers over the keys with dexterity, he astounded the Massachusetts jurist with the strains of an aria from an opera they had attended the evening before and the fine points of which they had been discussing on their walk. In a jiffy a pleased crowd assembled. But so absorbed was Justice White that he did not notice his audience until from memory he had rendered the aria, which he had not played for years. When he saw the crowd he blushed and hurried through a rear door.

This is the kind of weather when good sidewalks can be appreciated.

The split log drag should be able to do some good service on the streets about now.

Owners of cisterns are rejoiced at this rain, as it gave them a much needed supply of water.

Those ten and twenty dollar offers for votes in Adams county, Ohio, seem to have got startling results. In the county some twelve or fourteen hundred men sold out. Ten dollars must be money in Ohio these days.

The government has just seized nine tons of bad eggs in Brooklyn, shipped there for the trade for the holidays. Down here in this part of the world when we want eggs we go out in the chicken yard and get what we need.

The big rain of last night and this morning has been worth thousands of dollars to this section. It has put the ground in good condition, and with a fair amount of rainfall the rest of the winter the soil will have a fine moisture for the next crop season.

## REAL GREATNESS.

Christ has given us a measure of greatness which eliminates conflicts. When His disciples disputed among themselves as to which should be the greatest in the Kingdom of Heaven, He rebuked them and said, "Let him who would be chiefest among you be the servant of all." Service is the measure of greatness. It always has been true, it is true today, and it always will be true, that he is greatest who does the most good. And yet, what a revolution it will work in this old world when this standard becomes the standard of every life. Nearly all of our controversies and combats arise from the fact that we are trying to get something from each other—there will be peace when our aim is to do something for each other. Our enmities and animosities arise from our efforts to get as much as possible out of the world—there will be peace when an endeavor is made to put as much as possible into the world. Society will have taken an immeasurable step toward peace when it estimates a citizen by his output rather than by his income and gives the crown of its approval to the one who makes the largest contribution to the welfare of all.—From "The Prince of Peace."

This has been a Gloomy Gus day for fair.

The ordinance against reckless driving to fires should be strictly enforced. It is an especially dangerous practice on a dark night.

After spending practically his whole

life trying to produce light and better light, Edison seems to have finished up in the dark, as witness his remarks on the human soul and the hereafter. Many people will follow Edison a great ways in his argument and reasoning, and will agree with him that the universe is based on eternal law, but few will follow him into his analysis of the human soul, which he undertakes to make a mere machine. Edison is like other men who have tried to solve this great question; he simply does not know.

## Mrs. Powell Almost Dead.

Dry Ridge, Ky.—"I could hardly walk across the room," says Mrs. Lydia Powell, of Dry Ridge, "before I tried Cardui. I was so poorly I was almost dead. Now I can walk four miles and do my work with much more ease. I praise Cardui for my wonderful cure." Cardui is successful in benefiting sick women, because it is composed of ingredients that act specifically on the womanly constitution, relieving headache, backache, irregularity, misery and distress. Only a good medicine could show such continual increase in popularity as Cardui has for the past 50 years. Try Cardui, the woman's tonic.

Edna Goodrich, late wife of Nat Goodwin, who is living apart from her actor husband at present, has just disposed of the large auto in which the couple toured Europe. The car is said to be the largest in the world, and contains a bed room, bath and kitchen.

"Forty-five years after the ending of the Civil War," says the Philadelphia Record, "there are over nine hundred thousand names on the pension list. There were not that many soldiers bearing arms at any time during the war. Now that it is no longer possible to add new names to the rolls, by whitewashing deserters or by discovery of unthought-of deserters it is gravely proposed to increase the pension rates so as to involve an added expenditure of \$45,000,000."

Next year should be a busy one in Palestine. To start with, work will be under way on the new federal building, and other business property will go up. It is possible, and many think probable, that the town will secure a new railroad in the coming year, and one that will be of some value. But the thing that is going to bring the greatest prosperity to the town is the location of many new people on our farm lands. A prosperous country population always means a prosperous town. Get the one and you have the other.

## Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

## Meet to Discuss College Athletics

New York, Dec. 29.—Representatives of nearly one hundred of the leading colleges and universities of the country filled the assembly room of the Hotel Astor this morning when Captain Palmer E. Pierce, U. S. A., called to order the fifth annual meeting of the Intercollegiate Athletic Association of the United States. The roll call showed the attendance to be larger and of a more representative character than at any previous meeting of the organization. A number of prominent colleges of the west and south were represented for the first time.

In accordance with a policy adopted at the meeting last year the opening session of the meeting was given over to addresses by men of wide prominence. In addition to Captain Pierce, who made the opening address, the speakers and their subjects were as follows: Rev. Charles F. Aked, D. D., of New York, on "Athletics as a Function in National Life;" Prof. R. Tait McKenzie of the University of Pennsylvania on "A Chronicle of the Amateur Spirit;" and Prof. Arthur G. Smith of the University of Iowa, on "Conference, Direction and Control of Athletics in the Middle West."

The real business of the meeting was taken up this afternoon and owing to the large number and importance of the subjects demanding attention it is probable that the session will be carried over tomorrow. Foremost on the agenda is the perennial question of football reform. While this subject does not loom up so largely on the program as last year, when the rules of the game were given a thorough overhauling, the matter will again be discussed with a view to bringing about the adoption of a still more perfect code. The charges that the new rules are not being strictly enforced by the officials selected, and that the students fail to adhere strictly to the letter of the present rules, will be handled in a forceful manner.

Other branches of college sport as well as football are slated for critical consideration. Summer baseball and amateur law and the subject of track athletics, their proper control, uniform rules for participants and methods of preserving records made will be discussed. Still another matter to be considered and acted upon is the proposal to change the constitution, so as to give representation on the executive committee to local leagues, such as that of the New England states, the Southern Intercollegiate,

the Missouri Valley conferences, Ohio Valley and the Western Pennsylvania and West Virginia League.

## Indiana Indians To Hold Council

(Herald Special.)

Peru, Ind., Dec. 29.—Members of the Miami tribe of Indians, who reside in considerable number throughout the length of the Wabash river valley, are gathering at the Kim Bundy reservation near this city to take part in the first Indian tribal council that has been held in this section of the country in many years. The council has been called by Chief Joe Engelman. The purpose is to agree upon a definite plan of action in pressing the Miami claim against the government. It is held that a large amount of money really due the Miami Indians was, by mistake, paid to the Potawatomies.

## Car of Bananas.

Car of Bananas arrived too late for the Christmas trade will be sold at the car at a sacrifice. Call early. 28-4t W. H. Smith.

## Will Move

to my new place, 206-208 Palmer street, Jan. 1. W. Mitchell, 28-4t The Furniture Man.

## Who Wants Shavings?

Good heavy mill shavings for kindling. A large load for 50c delivered. Phone 249.

## COURT HOUSE

Miller and Thompson to H. Wright, \$1200; conveys lots 3 and block 32, North Hill addition.  
Jewell White et al to Mose Merritt, \$1; conveys part of the T. N. Little survey.

## Mr. Business Man

It is generally conceded by all progressive business men that publicity is necessary to the life of business in these days. The only question debatable at all is the means of securing such publicity. The question has been discussed and tested, and the big concerns of the country have almost universally agreed that there is no advertising at anything like the same cost that compares, in its results, with newspaper advertising. And this is what the Herald wants to discuss with you, Mr. Business Man, for the coming year. When taking stock and making your plans for the next year, count the Herald in on your calculations. Phone our advertising man to come and see you and make you a price on a year's contract, and show you that you can carry a regular ad. in the Herald and cover the town every day at a nominal cost—much less than you possibly think. If you are interested in the question of advertising and business extension we are sure we can help you.

In this connection we desire to return our sincere thanks and best wishes to the host of business people who are our regular patrons the year round, and one year after another. These are the people that make business possible.

Phone 444 and we will have a man to see you.

THE HERALD
